tions in Massachusetts, New York, New Jersey, Wisconsin and Minnesota, confirm the good news in regard to them which we published on the morning after they took place. Massachusetts has gone for the Union by even a stronger vote than ever. The Union majority in New York is between twenty and twenty-five thousand, and the Union party has an increased majority in both branches of the legislature. New Jersey-all hail to her-is redeemed. The "Caniden and Amboy Rip Van Winkleism" which John Has kin so vehemently denounced, is repudiated by three thousand majority, and the Union party have secured the control of both branches of the State Legislature, thus making the ratification of the antilavery amendment certain. Minnesota and Wisconsin have gone for the Union by their usual overwhelming majorities. their expectations and hopes.

NOTES ON NEVADA-ITS GROWTH. Pive years ago, when the first silver mine was discovered in Nevada (the Comstock lead at Virginia City) that ter-The result of this grand triumph is not ritory contained hardly a white inhabitant reumscribed by local boundaries. In aside from the emigrants passing through to the gold fields of California. It offered act, the election of one ticket or the other, each of the States, so far as personal no inducements to agriculture, the soil being chiefly rocky and barren, and the water in the streams strongly alkaline, nerits or State issues are concerned, is a matter of very little consequence compared with the effect of these elections and hence useless. Perhaps a more for-bidding region (aside from climate, which upon the national policy. They came at is very salubrious) cannot be found elsa-where in the same latitude.

In four years of war this rocky waste has risen to the dignity of a Stata, con-taining a population, the most enterpris-ing in the world, numbering 90,000, with recooling cities aveallent roads telegraphs critical moment. The Democratic party sized upon the natural re-action from the igh-toned feeling of the war, and upon the conservative and retro-active experinental policy of the President to make a alous cities, excellent roads, telegraphs chools and churches. newed effort to regain power. Had Virginia City, the metropolis of the ney triumphed, the President would State, situated on the eastern slope of the Sierra Navadas in the original Washoo ave felt the effect of their success, while the Union men in the coming Congress region, has a population of 20,000, and will compare favorably in point of busiwould have been afraid to take the adanced position necessary at the present ness and buildings with many Atlantic cities, although the absence of vegetation gives it a blank appearance so far as beaune. Their utter and overwhelming deeat has had, of course, a directly contrary effect. The Union majority in the next Austin, the seat of Lander county, and longress will be strengthened and encourheadquarters of the Reese river region, is but two years old, yet has a population of ged in their position. The President 10,000 and is thriving well.

Nevada is perhaps the only instance of a State being wholly based on a single interest, and the importance of that interest oo, will discover that the party which

lected him is still the controlling one, and is powerful enough to give him he support of the country in he most radical measures which he may propose. But the result of the elections will be felt not less powerfully in an empire.

No railroad yet enters the Silver State the Southern States. The politicians of the South, who, presuming upon the oldtime servility of the Democratic party, have hoped to gain power, assume the rebel debt, repudiate the national debt, and re-establish slavery in one form or another, will discover that a radical change

was called the Triangle. It was not included in Pennsylvania originally, nor in any other State. The Pan-Handle and Triangle were both made by one survey of Pennsylvania boundaries, required to be made that their testimony be received in the earth. The lode usually has a pitch or courts. Without these, he says, the color-ed people will have no safeguards against and varies in thickness from two to forty feet.

as much further shead as Gengral Banks' recent political and military career has alienated from him old friends and old regard.

R. B. Brockway, of Chicago, who has been visiting his relatives,—the family of Mr. Baymond's friends emphatically deny that he has any aspirations for the Speakership; and I know that he said as much to Colfax a year ago. On the other hand indiscreet and doubtless unauthorized personal residual properties.

One of the boldest robberies we have lately heard of, took place in Painesville were assigned quarters at "the Libby."

Early on Saturday morning a large number of them left their temporary barracks, and imbibed a sufficiency of common whisky to reader them noisy and insubordinate. Hearing how they were proceeding, Lieutenant Murry, of the 20th New York State Militia, the officer of the guard, hastaged to the prison to quell the disthe upper part of our vinage, carry in the colfax a year ago. On the other hand indiscreet and doubtless unauthorized persons have been boasting here of the large sums that could be raised to put Governor Raymond in the Speaker's chair.

The "Father of the House," Elihu B. Washburne, of Illinois, was a candidate two years ago, but it is stated he will now support Colfax. General Ashley, of Ohio, will doubtless have complimentary votes in the caucus. So may John A. Bingham of Ohio, and a half dozen other gentlemen.

The "Father of the House," Elihu B. Washburne, of Illinois, was a candidate two years ago, but it is stated he will now support Colfax. General Ashley, of Ohio, will doubtless have complimentary votes in the caucus. So may John A. Bingham of Ohio, and a half dozen other gentlemen.

The "Father of the House," Elihu B. Washburne, of Illinois, was a candidate two years ago, but it is stated he will now support Colfax. General Ashley, of Ohio, will doubtless have complimentary votes in the capture of five hundred dollars and a gold watch, with a valuable chain attached. Hearing how they were proceeding, was seized by a ruillian, garroted, and releved of five hundred dollars and a gold watch, with a valuable chain attached. Hearing how they were proceeding, was seized by a ruillian, garroted, and releved of five hundred dollars and a gold watch, with a valuable chain attached. Hearing how they were proceeding, and releved of five hundred dollars and a gold watch, with a valuable chain attached. Hearing how they were goth some in the valuable chain at a gold watch, with a valuable chain and in granding the process of the squard, hastened to the prison to quell the disturbance. He was immediately surfaced in the centure, of the statement of those of the same part of the capture erence) were riding out a few days ago.

the 4th Massachusetts came to his assistance, but these were quickly driven back.

> James Hutchinson, arrested for burglary, was brought before Justice Doolittle on Treasley After the Topsdey After the To Tuesday. After hearing the testimony, of the Castle-Thunder guard, Captain Elisthe case was adjourned for argument—the worth, with thirty-six of the 11th United

been emancipated by the war. The rulers at the National capital are of another temper, and they will not be apt to brook definance and insolence on the part of the rebels whom they have just subdued. The knowledge of these facts will produce a most salsilver mines and minion.

It was settled very early in the history of Nevada that her silver mines were or head of the South-of reconstruction in a different spirit and we trust with better results. In this view of the result of the elections, therefore, as we trust with better results. In this view of the result of the elections, therefore, as well as in all others, there is much occasion for thankfulness and joy.

The Florida Convention—Gov. Marvin's Message.

The State of the results. In this view of the elections, therefore, as substances by which to extract the metal from the baser substances with-out to great waste. Hundreds of experiments were tried, running through months, consuming millions of capital, and discovered the metal from the baser substances with-out the metal from the baser substances will be the most important committee in the metal from the metal from the baser substances will be the most important committee in the metal from the baser substances will be the most important committee in the metal from the baser substances will be the most important committee in the metal from the baser substances will be the most important committee in the metal from the baser substances.

In Cleveland, with whom she lived in this the metal from the baser substances will be the most important committee in the metal from the last of the story of the story of the story of the st
